Network of Pregnancy Decision Centers

A woman facing unplanned pregnancy often feels stuck, trapped, and coerced—like she needs to get an abortion to save her life as she had hoped or planned it. The emotions surrounding this critical decision feel overwhelming, and the path seems hopeless.

CompassCare's approach focuses on reaching abortion-minded women within her decision-making window—typically 24-48 hours after her first positive, at-home pregnancy test. For over 40 years, CompassCare has provided pertinent information, ethical medical care, and comprehensive community support to women for free—helping a woman say no to abortion and yes to her baby.

Service Locations

- Buffalo
- Rochester
- Albany
- Brooklyn
- The Bronx
- TeleCare (US and International)

It only costs CompassCare \$570 to serve one woman with the ethical medical care and community support she needs to have her baby.

In 2024, CompassCare gave away approximately \$3.2M in free medical care.

+\$3.2M

CompassCare's Patient Satisfaction Rating is 4.9/5!

"I thank God for CompassCare!" - Jabra

Multiplying Impact

CompassCare pioneered the Linear Service Model and was able to serve 30% of all women seeking abortion in Rochester, NY, causing abortion to decline by 50% during the pre-Dobbs high-water mark of 2008. In addition to the vision for replicating those results in Buffalo, Albany, and NYC, CompassCare has trained and equipped over 650 pro-life pregnancy centers nationwide, empowering them to reach and serve more women than ever before!

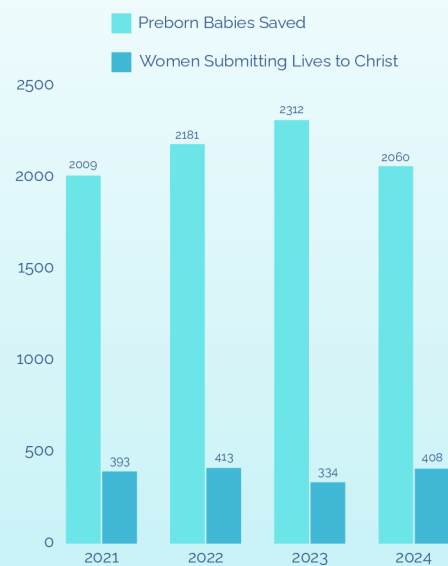

"Our numbers more than tripled... And we successfully helped those women turn the corner—293 times we were able to help women make a decision for life."

- Pregnancy Center Executive

Pregnancy Centers Provided with Strategy and Materials to Improve Effectiveness

Lives Saved Nationally

Mission

Because all people are made in the Image of God and are therefore equally valuable, CompassCare is dedicated to erasing the [perceived] need for abortion by transforming a woman's fear into confidence.

Relevance

Serving the right women, at the right time, in the right way.
COMPASSCARE

COMPASSCARE CORE VALUE:
Relationality

Treating the whole person, to help the person become whole.
COMPASSCARE

Teaching the Community

"The more we talk about how all people are created in the Image of God and are equally valuable, deserving of blessing and protection, the more pro-life the culture becomes."

- Rev. Jim Harden, M.Div., CompassCare CEO, EMC FrontLine President

Target of Pro-Abortion Activism

Following the illegal leak of the *Dobbs* Case, overturning *Roe v. Wade*, CompassCare was firebombed in 2022 by violent, domestic extremists. Since then, CompassCare has been attacked through:

- Weaponization of Legislation
- Politicization of Federal Law Enforcement
- Big Tech Censorship
- Death Threats
- Lawfare

"We're proud to defend CompassCare against Letitia James' attacks on New York's pregnancy centers. We are honored to support your mission!"
-Thomas More Society

CompassCare's team of *pro-bono* attorneys are defending your right to continue serving women and saving babies from abortion through CompassCare.

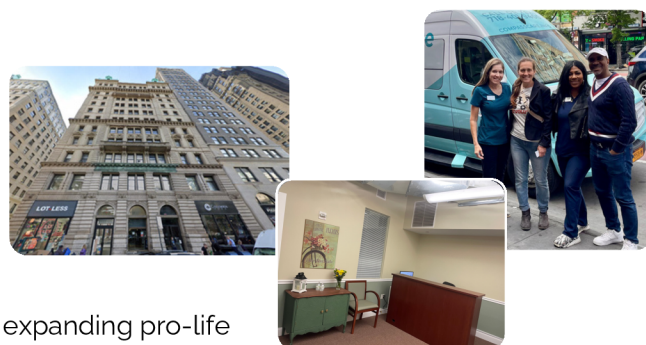

Frontline of the Abortion Battle: Doubling Lives Saved in 2025

2022 demonstrated that New York is the Nation's abortion headquarters, both for surgical and chemical abortion. It is now an abortion tourism destination with numbers up 15% state-wide.

- **The Bronx:** Up 25% (from 8,799 to 10,976)
- **Kings (Brooklyn):** Up 18% (from 11,856 to 14,019)
- **Queens:** Up 19% (from 8,756 to 10,442)
- **New York (Manhattan):** Up 25% (from 5,509 to 6,875)

CompassCare is saving lives on the frontline of the abortion battle, projecting to **serve twice as many women in 2025**. The goal is to continue expanding pro-life infrastructure from Brooklyn and The Bronx into Queens and Manhattan in order to double women served and babies saved year-over-year for the next three years.

Doubling CompassCare's patient load will more than double operating expenses. NYC expansion will cost approximately \$7,000,000, with an ongoing operating expense of \$1,000,000 per medical office per borough. That's why a generous donor committed to an **unlimited, dollar-for-dollar matching fund**—doubling your gift to save lives on the frontline of the abortion battle.

"I invite you to join me in supporting CompassCare to protect pro-life pregnancy centers and save women and babies from abortion. You were born for such times as this. Together, we can ensure that no matter the times, all babies will have the opportunity to simply live so they can do the things they were born to do. - Glenn Beck
